

“I love being able to hear the person’s voice because I can understand a lot of what they say... But the captions are there in case I miss something.”

Enjoy Your Telephone Conversations Again!

CapTel® Makes it Possible.

Ideal for people with some degree of hearing loss, the CapTel works like any other telephone with one important addition: it displays every word the caller says throughout the conversation. CapTel users can listen to the caller, and can also read the written captions for added clarity.

Perfect for anyone who uses hearing aids or who finds it difficult to hear/understand clearly on the telephone.

Everything your caller says appears in the CapTel phone display screen.

Understand every word on the phone with the help of written captions. CapTel makes it possible.

CapTel – The Telephone That Shows You Captions

- Calls are made in a natural manner – simply dial the telephone number directly for the person you are calling
- Captions appear on the bright, easy-to-read display
- Powerful amplification with volume boost (up to 35dB) gives you maximum volume
- Adjustable tone & volume control for optimum sound clarity
- Captions are provided, free, by a captioning service
- You can review captions during or after a call (500 lines of memory can be reviewed after hanging up)
- You can use *CapTel* with headsets, a neckloop, a cochlear implant patch cord, or other assistive listening devices
- Easy access to voice mail, phone menu systems, and answering machine messages
- Optional USB Port lets you view large print captions on your computer monitor
